Glendell S. Dia

Agus Rd. , Ibabao | Lapu - Lapu City, Cebu
(+63)9935977106|glendellsara@gmail.com|GlendellDia|LinkedIn

Skills

Data & Reporting Tools: SQL, Power BI, Microsoft Excel (Power Query, Pivot Tables, Advanced Functions), Tableau.
Scripting & Automation: Python (Data Validation Workflows), R.
Data Operations: Data Governance, Data Quality Standards, Compliance Practices, Process Documentation, API Data Integration.
Systems Engineering: Shell Scripting, Bash, AWS Console etc.
Interpersonal & Support: Jira, CRM, Virtual Assistance, Excellent Customer Service, Cross-Functional Collaboration, Communicating Insights to Non-Technical Audiences.

Educational Background

University of San Jose-Recoletos, Cebu City Bachelor's Degree (2022 – 2026)

Science and Technology Education Center, Secondary Education (2014 – 2018) – With Honors

Marigondon Elementary School, Lapu-Lapu City Primary Education (2010 – 2014) – With Honor

Projects

• Adventure Quest Modules: An Interactive Learning Offline Application (Unity top-down gameplay 2019-2020)
• ESP32 and TEA5767 Radio (2024)
• Ticketing System Alliance Jumpstart Program (2025)
• R and Python ML Difference on Linear Regression and Decision Tree (2025)
• Academic Performance Counseling System (2026)

Awards and Certificates

• CodeCamp: Data Analytics with Python
•ICpEP Cebu USJR Python 3rd Placer
• Cisco: Data Analytics Essentials
• Cognitive Class: SQL and Relational Database
• MongoDB: Introduction & CRUD Operation: Insert and find document
• Alliance Software Engineering Certificate
• KodeKloud Engineer Certification: AWS, Python, Linux, Docker and Kubernetes

---

Experience

Data Entry Specialist | Evolve Global Services *Sept. 2025 – April 2026 (Part-time, Remote)*

• Quality Assurance & CRM Management: Audited 500+ weekly source documents while updating customer profiles and pipeline data in enterprise CRM platforms (Salesforce/HubSpot), maintaining a 99.8% accuracy rate and strict data hygiene.

Data Science Intern | JobTarget | January – April 2026 (Remote)

• Spearheaded the development of end-to-end data pipelines using AWS Glue, Amazon S3, and Athena to manage and query petabyte-scale recruitment datasets. I focused heavily on ensuring 100% data integrity by conducting comprehensive audits across multi-table relational databases

and executing rigorous validation through advanced Excel reporting and automated SQL workflows.

OpsWerks - Cebu City, Philippines | Site Reliability Engineer Intern | April 2026 - Present

- Complete hands-on training in Linux, Git, Python, Docker, AWS, Kubernetes, AWS EKS, and Prometheus through practical labs and simulated production scenarios. Apply DevOps and SRE concepts to containerized workloads, cloud infrastructure, troubleshooting, and Kubernetes operations.
